Career Objective--

Aspiring Software Developer with strong programming, data analysis, and IT foundations. Eager to contribute to information security initiatives and learn advanced technologies in a dynamic banking environment. Passionate about cyber security, automation, and building resilient systems. A fast learner, critical thinker, and problem solver committed to confidentiality, integrity, and availability of systems.

Core Competencies ---

- Programming & Scripting: Python, JavaScript, Java, C++, PHP, VB.Net, Electron
- Cybersecurity: Digital Forensics, Embedded Systems, Data Recovery
- Web Development: Full Stack (HTML, CSS, Django, JS, MySQL, MongoDB)
- Information Security: Risk Mitigation, Troubleshooting, Debugging
- Tools & Platforms: GitHub, Office 365, ITIL Foundations, Database Admin
- Soft Skills: Collaborative, Resilient, Creative Thinker, Curious, Business Acumen

Projects --

All Projects are on my github, link at the top

- Static Website: randpowerstate.co.za
- Static Website: lesedium.com
- Medical Data Visualizer
- Learning management system
- Pdf splitter
- Image Text Analyzer
- Password Manager
- Budget App
- Web Cloner and many more.

Education ---

Sol Plaatje University | **Diploma in Information Communication Technology** *2025*

Key Modules:
- Programming: Python, Django, Java, VB.Net, PHP, HTML, CSS
- Web, Interactive Design, Networking and Databases
- Professional Communication

Makgetse High School | Hammanskraal, Pretoria, Gauteng
Matric Certificate – Distinction *2021*
- English, Level 6
- Mathematical Literacy, Level 7
- Consumer Studies, Level 6
- Life Sciences, Level 6

International Information System Security Certification Consortium (ISC2)
Alexandria, Virginia, U.S (Online)
Certified in Cybersecurity - 2025
- Generative AI
- Alibaba Cloud infrastructure
- Artificial Intelligence
- Cloud Computing

LinkedIn Learning | Carpinteria, California, US (Online)
Security Risks in AI and Machine Learning: Categorizing Attacks and Failure Modes
- Security Risks
- Artificial Intelligence
- Machine Learning

Simplilearn | San Francisco, California, US (Online)
ITIL v4 Foundation - July 2024
- IT service management (ITSM)
- service lifecycle stages
- process optimization

Udemy | San Francisco, California, US (Online)
Ethical Hacking - Nov 2024
Hack and Secure Wifi and Wired networks, cloud servers, discover & exploit web application vulnerabilities to hack websites, Kali Linux, Crack WEP/WPA/WPA2 encryptions, ARP Spoofing / ARP Poisoning, Launch various Man In The Middle attacks

Udemy | San Francisco, California, US (Online)
Artificial Intelligence Engineering - Dec 2024
- Machine Learning
- Artificial Intelligence
- Machine Learning Algorithms

Alibaba Cloud Academy | Hangzhou, China (Online)
Generative AI - 2025
- Generative AI
- Alibaba Cloud infrastructure
- Artificial Intelligence
- Cloud Computing

MongoDB University | US (Online)
Python Programming - 2024
- Generative AI
- Alibaba Cloud infrastructure
- Artificial Intelligence
- Cloud Computing

Experience --
Risk Diversion| **Digital Forensics Intern** *December 2023(One Month)*
- Gained foundational knowledge in hardware components and operating systems critical to digital forensics
- Developed troubleshooting skills and an understanding of data recovery processes.
- Explored embedded systems and their applications within forensic investigations.

JD Group (Sleepmasters ThornTree)| **Helpdesk & Sales** *January 2024(One Month)*
- Exceeded monthly sales target by R10,000, achieving over R40,000 in bed sales for the month.
- Demonstrated strong communication skills in assisting customers and providing product information.
- Collaborated effectively with team members, contributing to a high-performing sales environment.
- Performed accurate data capturing to maintain customer records and sales tracking.

Professional Development --

HSRC | **Quantitative Research and Statistical analysis** *July 2024*

- Theoretical and Conceptual Frameworks and their Application
- Research Components and Processes
- Research ethics
- Foundations of Quantitative Research and Statistical Analysis
- Advanced Statistical Analysis, Cross- Sectional Data Analysis, STATA, SPSS, Foundations of Qualitative Research and Atlas.TI, Photovoice, Literature Search and Referencing

Stellenbosch University | **Leadership** *Aug 2023*

- Leadership

Languages --

- English: Fluent
- Setswana: Fluent
- Afrikaans: Intermediate
